## Coalition of Independent Voters for an Inspired Congress

We are the “Courageous Center” willing to stand up for the Core Values that makes America a great nation.

We are Independents, joined by Republicans and Democrats, deeply concerned that our democracy is under attack by extremists. We seek elect moderate, rational, ethical, and intelligent candidates. Candidates who understand that that bi-partisanship is essential to solve America’s most vexing problems.

**Problems we are Facing:** Many of the guardrails that have protected our democracy have been obliterated:

- Wars are declared and Tariffs imposed Without Congressional Approval.
- The Department of Justice Weaponizes its powers for Political Retribution.
- The Inspectors General and Auditors who ensure against Government Corruption have been fired.
- The Senate has Defaulted on its responsibility to check the Executive Branch according to the Constitution.

**Big dark money believes America is up for auction to the highest bidder**

**Our Purpose:** To Keep Democracy Safe, the best short-term strategy is to **FLIP the SENATE! NATIONWIDE!**

It’s About **Strategic Leverage** -- the one critical factor that will make the biggest difference in the shortest time window. By joining forces, we can reverse our nation’s Descent into Darkness.

**FLIPPING the SENATE** will put guardrails on Executive Abuse and Dark Money. There is no greater strategic objective. If we don’t **FLIP the SENATE**, our freedoms of democracy will be lost.

**Our Strategy:** Support **Candidates of GOOD CHARACTER** — regardless of party affiliation — people who will Trustworthy —able to engage in Bi-Partisan Collaboration to solve the problems that face all of us — for the good of our county. Trust in government stands at a mere 17% — an all-time low, making our nation vulnerable to extremists, intense public apathy, polarization, divisiveness, and manipulation.

**Independents Turn the Tide:** Throughout America about 45% of the electorate are now Independents. This means any political party must appeal to the Courageous Center — to win an election.

**Our Vision:** A Congress worthy of the American people — where **Integrity, the Constitution, Unity, Service, and Justice** guide every decision, by electing and supporting leaders of Good Character who put:

- **Integrity Above Ambition,**
- **Constitution Above Party,**
- **Unity Above Faction,**
- **Service Above Self,**
- **Justice Above Power — Restoring Public Trust** in our democracy.

This takes a special type of politician who will *put our country’s future ahead of their desire to control political power*. These are the courageous politicians with character we are supporting.
